ELECTRONIC CALL BACK HOURLY CONVERSION CHART

HOW TO USE THIS CHART

This chart is to assist you in reporting your electronic callback worked. To bank your Electronic Call Back as time off, refer to the "Banking Electronic Call Back Conversion Chart".

Your timesheet calculates your actual time worked based on an hourly rate, therefore all time entered must be hourly or as a portion of an hour.

The following chart shows the number of minutes worked, how to enter the amount of time worked as hours, and which code to use. The hours to enter in the timesheet have been calculated for you in this chart. You do not need to do any further calculation when entering Electronic Call Back using this chart.

You are eligible to be compensated at the greater of one hour at the straight time rate, or the applicable overtime rate for time worked. The one hour minimum payment is only applicable once in every 60-minute period. Time worked over the 60-minute period that began when the first call started enters a new 60-minute period. Every time this occurs, begin entering from the top of the column for "First Call in a 60-minute period".

HOURLY CONVERSION CHART WHEN ENTERING ELECTRONIC CALLBACK

Minutes Hours to enter in the timesheet 1	First Call in a 60 minute

Time v	worked over 6	0

Time worked over 60 minutes enters a new 60-minute period. Every time this occurs, begin entering from the top of the column for "First Call in a 60-minute period".

For example, EE works for 70 minutes. For the first 60, the greater benefit is to enter 1 ECBE or ECB3. For the last 10 minutes, the greater benefit is then to enter 1 ECB or ECB0.

<u> </u>			

Time worked over the 60-minute period that began when the *first* call started enters a new 60-minute period. Every time this occurs, begin entering from the top of the column for "First Call in a 60-minute period" or ""First Call on a Stat or 2nd/Subsequent Day of Rest".

For example, Call 1 is from 22:20 - 22:35. Enter 1 ECB or ECB0 (see column for "First Call in a 60 minute period").

Call 2 is from 22:35 - 22:50.
This call is 15 minutes, or 0.25 hours and falls completely within the 60-minute period that began at 22:20 with Call 1.
Enter 0.25 ECB1 or ECB3 for Call 2 (see column for "Second Call in the same 60 minute period").

Call 3 is from 22:50 - 23:45. The first 30 minutes of this call fall into the same 60-minute period that began at 22:20 with Call 1. These 30 minutes are entered as 0.5 ECB1 or ECB3.

The last 25 minutes of Call 3 fall into the next 60-minute period, so for this part of the call look in the column for "First Call in a 60-minute Period." These 25 mins are entered as 1 ECB or ECB0.

Total amount for all three calls: 2 ECB or ECB0, and 0.75 ECB1 or ECB3
